VOTE early. Polls close at 4 o'clock.

BARNETT stands squarely on the Republican platform.

Hon. A. E. WILLSON will speak at Owensboro to-morrow.

BARNBROOK, Bloom & Co., one of the largest wholesale business houses in Louisville, made an assignment last Saturday.

VOTE for Ringo and you vote to retain the State Board of Equalization, which is useless and has cost our people thousands of dollars.

THERE will be no Eagle on the ballot this year, so you must stamp under the Log Cabin in order to vote the Republican ticket.

The Chairman of the Democratic Campaign Committee has given up all hopes of electing Ringo, as the Populists will not forsake Miller for him.

The people have become so accustomed to the Herald's unreliable and irresponsible statements just before elections that its continuous issues of slanders and mud and filth and political offences and tricks will have no other effect than to disgust decent men of all parties.

The Democratic pap-hunters and wielders of the party lash are making very wry faces at Mr. Atherton, the editor of the Louisville Post, Gen. Cassius M. Clay, Jr., and others, because these gentlemen prefer to act from principle and do not propose to fall down and worship Harlan.

By reason of a new arrangement of the train service between Cincinnati and Louisville the Cincinnati daily papers reach points of the C., O. & S. W., the Texas and the L. & N. and others with the Louisville papers. This gives the big dailies of the former city a great advantage.

Hon. Scott Morrison it seems a little early in announcing his candidacy for Circuit Judge in this district. Mr. Morrison is a good lawyer and would make a competent Judge, but we would have him understand that Ohio county has good timber for the judgeship in the person of our own E. D. Guffy, and as Daviess county has held this place for several years, we call a halt and ask that Ohio county be given a show.

It is amusing now to see the Herald asking the Populists to forsake their man Miller and vote for Ringo, when it has only been two years since Ringo, in his paper, the Herald, buried all kinds of abuse upon that party, and especially did he make it a personal matter, by assailing Mr. Pirtle with all kinds of mean things, such as "Old Moesback Pirtle," "Old Hayseed Pirtle." Now, it looks cheeky for Ringo to be asking those self-same men to support him. Will they do it? No.

The Herald "fluked" on the questions propounded by THE REPUBLICAN and flatly refused to answer a number of them at all and either dodged the others or made wilfully misleading answers. Speaking of whether the Herald indorses Col. Powers for appointing the big negro to a fast office in the Custom House, the Herald says: "Of course the Herald indorses this, because Janitor is a negro's place." Janitor is a negro's place, is it? Then the Herald means to say that the white persons who are acting anywhere in the capacity of janitor are filling a "negro's place."

In order to shut one horn of a dilemma the Herald chooses a worse. It further falsely says that President Cleveland never invited Fred Douglas to dine with him and then adds insult to injury by accusing President Harrison of making the invitation. It attempts to dodge the connection of President Cleveland with the New York law. While Governor of New York Grover Cleveland signed the bill which abolished separate schools for white and colored children in New York. The Herald dares not make frank and open answers put by THE REPUBLICAN.

TO PENSION EX-CONFEDERATES. A dispatch in the Louisville Post of Oct. 28, from Harrodsburg, Ky., says:

"A meeting of ex-Confederate soldiers to the number of eighty was held in this city Saturday afternoon, at which was present representatives from Mercer, Boyle, Woodford, Anderson and Jessamine counties. Strong speeches were made favoring petitioning the next Legislature to grant pensions to all disabled Confederates, as is now being done by many Southern States. It was a representative gathering, such as the Rev. J. O. Hunter, the J. R. Deering, Dr. J. O. Dehman, Dr. D. M. Thompson, Messrs. J. F. Witherson, E. W. Lyon and G. N. Handy being present. The last three are wealthy farmers, and in his remarks Mr. Witherson asserted that no gallant Federal would oppose so deserving a measure. The meeting adjourned to meet again to meet in this place on the first Monday in December, and every county in the State will be urged to send a representative. Powerful influence will be brought to bear on the next General Assembly to pass the bill.

This will be quite a surprise to a great many people, but such a demand is by no means impossible. Mr. Witherson, however, will doubtless find before such a proposition is made a Kentucky law that he is very badly mistaken when he says that no "gallant Federal would oppose" such a measure.

## REPUBLICAN DEVICE.

Place the X Inside the Square Under the Log Cabin.

REMEMBER, Republicans, that the polls close at 4 o'clock. Vote early.

LOOKOUT for a Herald extra full of campaign lies between this and Tuesday.

VOTE the Republican ticket by stamping your ballot under the Log Cabin.

It is estimated that one million dollars is wasted every year by the women of Chicago on big sleeves. Of a truth, economy is a lost art.

MR. MILLER is not in the race to defeat Ringo. Miller was nominated before Ringo's party would take him, and it seems Ringo is running to defeat Miller. Mr. Barnett is going right along making friends every day.

DEMOCRACY is in a bad fix when they send such a man as Rothwell out to make speeches. He is a disgrace to the State, a disgrace to the Committee which brought him here, and has brought a disgrace upon the fair name of Ohio county.

ROTHWELL said in his speech Tuesday that there were only about three hundred white Republicans in Ohio county. Who is too blame for his ignorance? Is it the Democratic Committee? If so, they should have the seal of condemnation stamped upon their brow.

THAT man Rothwell is a disgrace to Democracy. His ignorant abuse of Col. Bradley and other members of the Republican party disgusted every fair-minded Democrat and many are loud in their denunciation of the contemptible rascal who is sent out to say certain things about the Republican candidates, which are false.

THE trial of Holmes for the murder of Benjamin Pietzel, September 2, 1894, was begun Monday at Philadelphia under most remarkable circumstances. Just at the time of going to trial his lawyers were discharged, two other lawyers chosen by the court were refused by him, still another refused the appointment of the court and Holmes proceeded to conduct his own case.

MR. BARNETT has tried to conduct the campaign upon the issues of the day and to avoid stooping to the personalities and mud slinging resorted to by Mr. Ringo's organ, the Herald. Mr. Barnett's record on the whisky question, as well as on all others, is open for inspection. He has always voted against whisky at every opportunity and has acceded to every opportunity to cast his ballot according to his best judgment. Mr. Barnett is a high-toned gentleman and is above the personalities with which the columns of the Herald are crowded.

THE Democratic Committee has turned loose upon the voters of Ohio county one J. M. Rothwell, a political backbiter, an irresponsible slanderer, an unscrupulous falseifier, who is hired to say all manner of mean, base and vituperative things about Col. Bradley. It is doubtless true that the Democratic Committee under Mr. Norman could find no other speaker in the State so devoid of good taste and self-respect as to make the speech Rothwell makes. He is a political scavenger of the lowest order, a hired dispenser of campaign lies and villany.

POPULIST SPEAKING.

Hon. Thos. Pettit, Populist candidate for Governor, will address the citizens of Ohio county at Hartford, Monday, November 4, at one o'clock. Come and hear this giant of reform. F. W. PIRKLE, Ch'm'n O. C. P. C.

You can still get The New York Weekly Tribune and THE REPUBLICAN for only \$1.25 in advance.

### Now's the Time

The scriptures say there is a time for everything. A time to weep, a time to sing, a time to play, a time to dance, and a time to PAY. Did you ever think of this? In other words, what do you think about that subscription account you have been owing for these many years?

### Some People say

Well I am going to pay it off, but stop and think "we cannot run" on such "promises." It takes money. Your account may be small, but several of them added together amounts to something.

Account? Look at the label on your paper and get you a pencil and paper, figure it up, and send or bring us the money.

### JAMES AND ROTHWELL

Met in Joint Debate at the Court House.

Last Tuesday Dr. A. D. James, Republican nominee for State Senator, and Mr. J. M. Rothwell, of Garard county, met in joint combat at the Court House in the presence of a large crowd. Mr. Walker was chairman of the meeting and kept time for the speakers.

Dr. James led off in a speech of one hour in which he made a conservative Republican speech, and showed up the mismanagement of the Democratic party in the State and paid a high compliment to the Republican candidates for State offices, urging Republicans to stand by their ticket. At the close of his speech he paid some attention to his own candidacy. Mr. Rothwell followed in a speech of one hour and fifteen minutes. His main object was to dodge the issue and cry negro domination and to vilify Col. Bradley. His whole speech consisted of nothing but personal abuse, which disgusted every fair-minded man who heard him. Dr. James made a few remarks at the close of his speech, but was interrupted by Mr. Rothwell.

Dr. James has no Democratic opponent for Senator, and as the District is about 1,500 Republican he is sure of election.

### B. D. Ringo's Prohibition Record.

From the great stir that Mr. Ringo makes about prohibition, we would think that he claimed so right on his own part to indulge from the flowing bowl. He must have forgotten the time, during a protracted meeting in Hartford, when the christian spirit was being deeply moved, that Rev. Rinehart, who was engaged in the meeting and who boarded at the same house, went into Mr. Ringo's room for some purpose, when he found him and there were Mr. Ringo and Mr. J. B. Wilson indulging in Bacchanalian revelry. And they acted so imprudently as to offer the Divine drink, who immediately left the room in disgust.

### Received His Reward.

A hard-working and honest editor who died of starvation was being escorted to heaven by an angel who had been sent for that purpose.

"May I look at the other place before we ascend to eternal happiness?" asked the editor.

"Yes," said the angel.

So they went below and skimmed around, taking in the sights.

The angel lost sight of the editor and went around hedges to hunt him up. He found him by a big furnace (tanning himself and gazing with rapture upon a lot of people in the fire. There was a sign upon the furnace which read, "Delinquent Subscribers."

"Get a move on you," said the angel, "we must go."

"You go on," said the editor. "I am not going. This is heaven enough for me."—[Ex.]

### Willie Smith Pops Away at His Riv.

Willie Smith, a negro waiter at the Rudd house, shot three times at John Shawler Sunday evening, on Elm street, between Main and Cherry, but proved a bad marksman says the Owensboro Messenger. He was arrested by Marshal Wethington before any blood was shed.

Three months ago Shawler became angry at Forrest Hatfield, his lady love, because she received the attentions of another man, and slapped her. He was arrested, but dug out of the lockup and escaped the same night. Last week he returned and implored his darling to forgive him and let him love her again. She received him tenderly, but did not tell him she had taken up Willie Smith, who was very good to her, paying her home rent, etc. Sunday John went to Forrest's home and asked her to take a walk with him. She consented and they staid, but Smith met them at the gate and informed John that he was going to wreak vengeance on him for interfering with his affairs and began shooting. Shawler, who was drinking and had his nerve with him, straitened up and told Smith he would rather die by Forrest than anywhere else, and Smith continued shooting until his pistol was empty. He then said that is Shawler would stand there long enough he would kill him. Marshal Wethington was notified and arrested Smith before he could carry out his threat.

## A THRIVING INDUSTRY.

It Turns Out Ready-Made Literary Productions.

"Original" Essays Furnished to College Students Teachers Need No Longer Write Their Own Essays. For Statesmen Their Own Speeches.

The postal authorities have been asked to break up an industry which has started in the city of Washington, says the Troy Times, but after investigating the matter they have been forced to acknowledge their helplessness. The new industry is no more nor less than the business of furnishing literary productions to those in need. The firm in charge will for a money consideration provide original essays, orations, etc., for school and college students. This part of the business should be broken up if it is possible to do so, as it interferes seriously with the work of the colleges and schools. But there is another important feature of the industry which might be permitted to continue. That is the supplying of speeches to statesmen whose constituents might be anxious to hear from them. These statesmen are compelled to offer at least one speech during every session of congress which they have the good fortune to attend in an official capacity, and it is vastly better that they should have speeches written for them than attempt to write their own.

The business of furnishing ready-made sermons to clergymen declined to write their own and willing to pay for others' productions has long been carried on, and to a greater extent perhaps in England than here. It may doubtless be objected that these transactions involve more or less of fraud. Yet as a matter of fact they are not reducing to a simple commercial basis a practice that is very general? Men obtain information where they can and use it as they wish. And why not? Is it not theirs when they get it? The man who is clever enough to utilize the knowledge which others possess but do not understand how to turn to account should not be condemned as a brain borrower. He is simply using material that would otherwise be valueless. Vast stores of mineral wealth may be beneath the soil, its owner unconscious of its existence. A wide-awake prospector comes along, detects the presence of the riches below the surface, and, obtaining possession, proceeds to develop it. Who deserves the most credit—the man who originally owned the mine and failed to uncover its treasures, or the one who unsent the hidden veins and thus helped to increase the resources of a nation?

Knowledge, like wealth, serves no useful purpose unless put into active effort for the common good. It is better for ministers to prepare their own sermons, for statesmen to compose their own speeches and for pupils to write their own essays. But sometimes it is a distinct public gain to have the work done by those of readier minds.

### Household Hints.

The best way to keep your children from being spoiled is to let your neighbors bring them up. Less partiality is shown, and it is a well-recognized fact that children always behave best when away from home.

Russell-leather polish is not good for hard-wood floors. The best plan yet devised for polishing oak stair rails is to take six healthy boys, clad in corduroy or chambray, and let them slide down the banisters an hour a day.

Midnight suppers might add much to the immediate amiability of your husband, but in the long run they will ultimately destroy his digestion, and in giving them to him to keep him good-natured for the present you are merely deferring the irritation to a later period.—Harper's Bazar.

### Making Bargains.

"Everything marked down to the lowest possible point?" said the merchant, inquiringly.

"Everything," replied the clerk.

"I put the \$1.50 silk at \$1.25, and everything else is proportion."

"At \$1.25?" exclaimed the merchant.

"Are you crazy?"

"Why, no, sir. You told me to mark them down for a genuine bargain sale."

"Of course I did; but do you think a woman can ever see a bargain in money? Make them either \$1.24 or \$1.20 at once."—Chicago Post.

### Marriage of College Woman.

The college woman marries later in life than her uneducated sister. The most rapid increase in the rate, in the figures given for college women, is between the ages of twenty-five and thirty, showing marriage most frequent at this period; while for women in general it is most frequent between twenty and twenty-five. The census shows 9.7 per cent. of all girls between fifteen and twenty married—as age at which virtually no college women ever marry.—Century.

### Coal's Heat Value.

The important fact has over and over again been stated by those who have investigated the subject with scientific exactness that only about 8 or 8 per cent. of the total heat value of coal is utilized in an engine by heating transformed into power. In tracing up this loss it is stated that there are required some 1,200 degrees of heat, or heat units—not degrees of temperature—to change one pound of water into steam, while during the absorption of this amount of heat the temperature of the water remains at 212 degrees. This immense amount of steam is rendered latent and does not sensibly affect the thermometer. Scientific authorities explain the cause of this loss in the steam engine as due to the fact that the 900 degrees absorbed by water in being transferred into steam—212 degrees are apparent upon a thermometer, and which, added to 900, make up the 1,200 degrees above mentioned—go into the engine undisturbed by the thermometer, leave in the same manner and go to waste.
